

EXC-B150BBH LED Flood Light

Application Environment:
Indoor
Outdoor

Description

EXC-B150BBH full color series are high power outdoor landscape flood lighting fixture with high strength aluminum alloy housing by EXC-LED. Each lighting fixture is a separate lighting pixel, and each pixel can realize 8bit/16bit grades gray scale changing. Each lighting fixture can be used for accent lighting or flood lighting, such as building facade, bridge, stage, etc.

Features

- The newest generation technology: DMX512 parallel bus design
- High strength aluminum and low thermal resistance path cooling design
- High reliability modularization design
- Outdoor lighting protection and electrostatic discharge (ESD) protection design
- Load safety design
- Projection distance: 3-15m

Basic Specifications

Color Range	W,
Working Voltage	AC220V
Max. Power Consumption	18W/24W
Light Source	9/12 PCS High Power LEDs
LED chip Brand	Optional(Cree, OSRAM, Lumileds, Epistar, etc...)
CRI	80
Control	ON/OFF
Source Life	50,000 h
Housing	High Strength Aluminum
Cover	Tempered glass
Weight	1.6Kg
Dimensions	148mm x 121mm x 68mm (L x W x H, exclude Mounting Bracket)

Installation	Installation with screws or adhesive
Working Temperature	-40°C to 60°C
Storage Temperature	-40°C to 70°C
Protection Rating	IP66
Efficiency flux	≥60LM/W(White), ≥40LM/W(RGBW), ≥30LM/W(RGB)
Beam Angle	5°, 10°, 30°, 80°, and other angles optional

Host Controller	EXC-5200
Slave Controller	EXC-2905T1
Signal Cable	EXC-LED outdoor special cable

Light Intensity Distribution

Physical Dimension

Unit: mm

**Installation Diagram**

Step 1, use 2 M5 screws as shown to fit the lighting fixture in the desired position.

Step 2, adjust the projection angle of the lighting fixture according to the actual requirement.

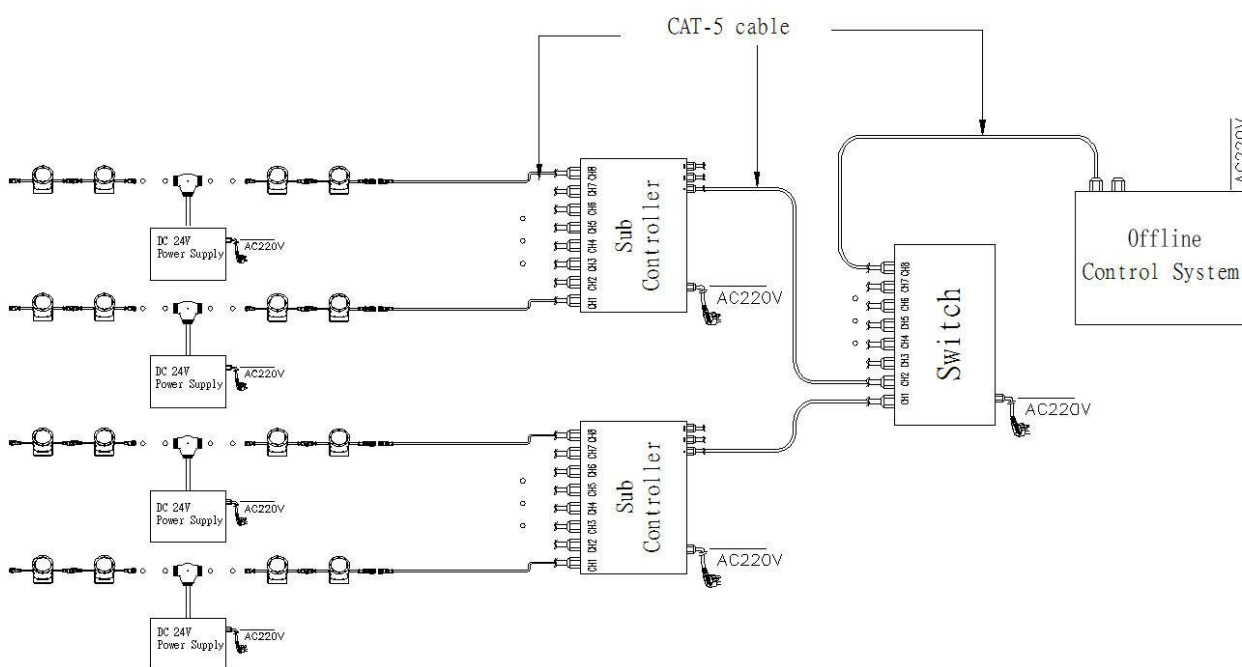

Step 3, lock the lighting fixture fixing screws.

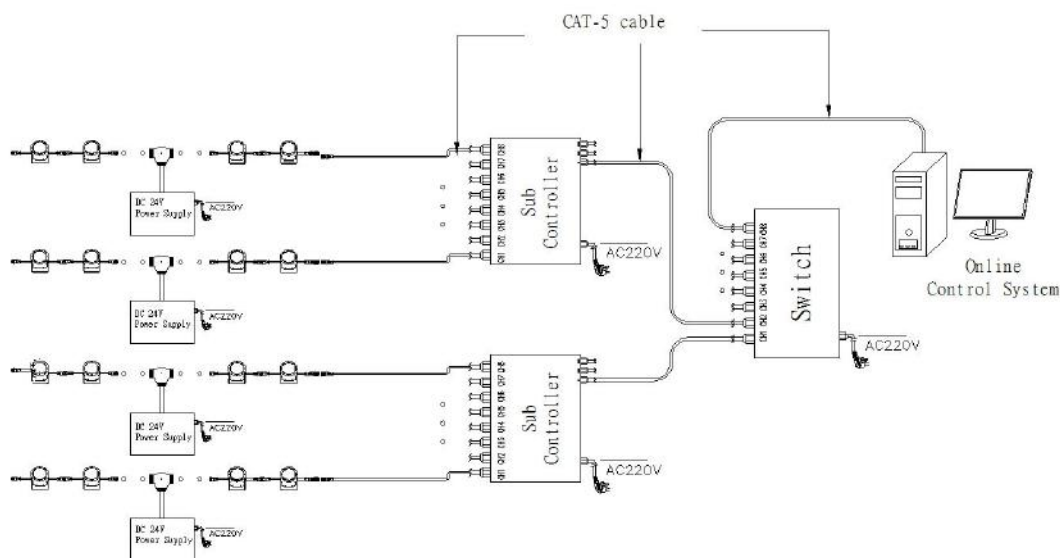

System connection diagram:

- 1、 Host controller should connect with slave controller. Working voltage for controllers are AC220V.
- 2、 On-line main controller should connect with slave controller, on-line main controller and sub controller working voltage are AC220V.
- 3、 each sub-controller with 8 ports, with each port 512 pixels, supporting data converter, supports 100 meters ultra-long haul transmission.
- 4、 The CAT-5 e. cable distance should be within 100 meters between host controller and slave controller, between slave controllers and switch, etc.

Accessories :

1: Female and Male Connector(Connect to first dot light for signal transmission)

Female Connector

Male Connector

2: Y Shape Connector(For power Distribution)

Male Connector

3: Interconnection Cable(1.3M,3M,5M is standard length)

Female Connector

Male Connector

4: End Cap

Male Connector

Male Connector
